Notes:

- (a) Applicable to gasoline only.
- (b) Applicable to all refined petroleum products, except gasoline.
- (c) All segregated batches from Eagle Point, NJ, Booth and Chelsea Junction, PA of less than 65,000 barrels shall be assessed a handling fee calculated to equal \$0.05 x (65,000 - number of barrels in the batch) in addition to the transportation charge.

Petroleum products tendered for shipment from New Jersey origins to established delivery points may, by request of the owner of the shipment, be stored in facilities at Macungie, Pennsylvania which are intermediate to the final destinations and which are furnished by the owner of the shipment. Such facilities furnished shall be designed to deliver shipments to the carrier with an adequate suction pressure at the maximum pumping capacity of the carrier's pumping station at Macungie, PA when shipments are delivered from storage for shipment to final destinations.

TABLE 2: CONTRACT VOLUME RATE

Rate in Cents Per Barrel of 42 United States Gallons

FROM:		TO:		CONTRACT RATE
Origin	County	Destination	County	
LINDEN, NEW JERSEY	<i>Union</i>	LUCKNOW, PENNSYLVANIA	<i>Dauphin</i>	46.5

Application of Contract Volume Rate:

Rates set forth in this tariff and successive reissues thereof or supplements thereto will apply to the shipments of any shipper agreeing to ship guaranteed five year volume of ten million (10,000,000) barrels of gasoline between the origin and destination shown herein. These volumes, which must be shipped during a period of five consecutive years commencing with the effective date of the Agreement between the Shipper and the Carrier, are subject to the following terms and conditions:

1. The minimum shipment volume in each of 10 semi-annual, six-month periods (the "Accounting Periods ") will be one million (1,000,000) barrels. If, during any such Accounting Period, shipments are less than the one million barrel minimum shipment volume (the "Accounting Period Volume"), a deficiency payment, equal to \$.25 per barrel multiplied by the difference between the Accounting Period Volume and the number of barrels actually shipped, will be charged by Carrier. Any such deficiency payment will represent prepaid transportation and will be applied as a credit, at the rate of \$.25 per barrel, against transportation charges on shipments from Linden, NJ to Lucknow, PA in future Accounting Periods after the Accounting Period Volume in that future Accounting Period has been satisfied.
2. Shipments in excess of the Accounting Period Volume in one Accounting Period may carry over to offset deficiencies in subsequent Accounting Periods. Any prepaid transportation credit balances remaining at the end of the five-year term of this Agreement will be forfeited by Shipper.
